Re: Interim Production of Records, American Oversight v. U.S. Department of Commerce, et al.
(1:19-cv-00912 D.D.C.)

Dear Mr. Wood:

This letter concerns an interim production of records responsive to the above-referenced case. Today, the U.S. Environmental Protection Agency (EPA or Agency) is producing the following calendar responsive to Part 1 of Freedom of Information Act (FOIA) request EPA-HQ-2019-000587:

- Charlotte Bertrand (March 2018 – February 2019)

Some redactions have been applied pursuant to FOIA exemption (b)(4), where trade secrets and commercial or financial information is privileged or confidential. 5 U.S.C. § 552(b)(4). Additionally, some redactions have been applied pursuant to FOIA exemption (b)(5), where information is protected from disclosure by an applicable privilege. 5 U.S.C. § 552(b)(5). Lastly, some redactions have been applied pursuant to FOIA exemptions (b)(6) and (b)(7)(C), where release of information would constitute an unwarranted invasion of personal privacy. 5 U.S.C. § 552(b)(6), (7)(C).

As agreed upon in our July 18, 2019, Joint Status Report, this calendar does not include any attached files that may be referenced therein. Within three weeks of this production, you may select specific attached files identified in this production and notify the Agency of your selection. EPA will then process and release those records, subject to any applicable FOIA exemptions.

If you have any questions regarding this case, please contact Assistant U.S. Attorney Jason Cohen at (202) 252-2523 or jason.cohen@usdoj.gov.

Request: The American Gas Association (AGA) and Natural Gas Vehicles of America (NGVA) would like to arrange a follow-up meeting with you to discuss our ideas for regulatory reform, as described in our attached comments, filed May 15, 2017 in Docket EPA-HQ-OA-2017. AGA's comments address several programs, but at this meeting, we will want to focus on revisions we have suggested to improve: (1) the Subpart W reporting rule and (2) the PCB rules.

MEMORANDUM

SUBJECT: Limited Availability of the EPA Acquisition System

FROM: Kimberly Patrick, Director //signed//

Office of Acquisition Management

TO: EAS Users

Program Office Champions

Guidance from the U.S. Office of Management and Budget has revised

how the federal government codes contract vehicles. For the U.S. Environmental Protection Agency that means we have to make modifications to the EPA's Acquisition System and other financial systems. Unfortunately, to comply with this guidance, it will affect the availability of processing of contracts. Effective April 1, 2018, until further notice, the EPA Acquisition System will process only a limited set of transactions while we implement federally mandated enhancements to the EPA's contracting and financial systems. In the event of an emergency requiring a transaction to be processed after April 1, 2018, the OARM's Office of Acquisition Management will provide instructions outlining interim emergency procedures.

Effective April 1, 2018, the following transactions cannot be processed in EAS:

- * New contracts
- * New task orders
- * New blanket purchase agreements (BPAs)
- * New purchase orders
- * Modifications to purchase orders
- * Modifications to BPAs
- * New commitments
- * Amendments to commitments
- * De-commitments

The following transactions will continue to be processed during this time of limited availability:

- * Vendor payments
- * Purchase card transactions
- * Modifications to contracts greater than \$150K
- * Modifications to task orders against EPA contracts
- * Work assignments
- * Technical direction documents (TDDs)

The services we provide through the affected systems are critical to support the agency's mission and we understand the substantial impact to all our customers. We are working as quickly and efficiently as possible to implement the required system enhancements. We will continue to work on solutions to make other transactions available for processing and will update you accordingly.

From now until March 31, 2018, please complete and submit your

office's requests, so that they can be processed to avoid potential delays. In order to provide more guidance on what to expect starting April 1, 2018, OAM will be providing two webinars. Please save the following day/time for the webinar. Information on the conference line will be provided separately via calendar invite.

Wednesday, March 28, 2018 – 1-2pm EDT – Program Office Webinar

Wednesday, March 28, 2018 – 3-4pm EDT – Contract Office Webinar"

We thank you for your patience. If you have questions, please have your staff contact Pamela Legare, Deputy Director of the OAM, at legare.pamela@epa.gov <<mailto:legare.pamela@epa.gov>> or (202) 564-4310 or Meshell Jones-Peeler, Director of the Policy, Training and Accountability Division within the Office of the Controller, at jones-peeler.meshell@epa.gov <<mailto:jones-peeler.meshell@epa.gov>> or (202) 564-3160.

Jeffery, Charlotte, Karin

Again, thank you for agreeing to speak at next week's CDP training session. I have attached some talking points that give background on the CDP program in general, and on this cohort in particular. I have also attached a list of the 25 candidates, their home office, mentor, and developmental assignments.

Jeff Underwood (cc'd), who has been the program coordinator at Department of Interior for this cohort, will moderate your panel. If there is something particular you would like to share with the class, I encourage you to let him know ahead of time so he can ensure it's covered in the hour available.

Malissa Griffin (cc'd) will be coordinating the sessions next week, so look for her to meet you in the conference room at WJC-S 2138 on Thursday. Let us know if you have questions.

Subject: RE: Cong. Davis Letter on PRIA Reauthorization

Hi Aaron,

Thank you all for your help on the letter. Since the Omnibus only extends current PRIA law and not my boss' bill, we're curious if it would be possible to set up a meeting between someone at the Agency and Rep. Davis?

Not sure if that someone should be Charlotte Bertrand or another person, but wanted to make sure to flag the request for you all. Let me know if this is possible, and I'll happily put our scheduler in touch with your folks.

Best,

Jimmy Ballard

 Hi Nancy and Charlotte,

Tala Henry is coming to our PFAS pre-meet next week. But we don't have your OCSPP contact yet for the lead SAB briefing. We have a pre-meet today at 3:30. If someone from OCSPP could join us that would be great. Of course we will fill you in later if you can get the right person to the phone call today.

Best regards,

Tom

Hello,

Tom Brennan asked me to get us together to discuss/plan for a briefing to the Science Advisory Board on the EPA effort on Lead. I would like to start planning a robust panel discussion to present the Board with the EPA's leadership and Interagency work on the President's Task Force on Environmental Health Risks and Safety Risks to Children.

Please let me know if we need a conference line and if there are other person(s) we should invite?

Background

The SAB meeting is June 1.

Meeting materials must be publicly available and should be posted on the SAB website two weeks ahead of the meeting.

As a briefing there is not a specific charge to the Board. As a result of the discussion agency staff and SAB members may identify areas where the Board's advice may benefit the agency.

A draft agenda for the briefings is attached

Goals for our meeting:

Identify topic areas and the offices to participate on the briefing panel

Identify additional staff that should be in the room to participate in the discussion

at the meeting

Identify materials approval reviewers

Set schedule to meet May 16 posting

Straw Agenda is attached

Subject Meeting w/ TSCA New Chemicals Coalition

Location DCRoomEast3156/DC-EPA-EAST-OCSP (Call in Number (b) (6),
Access code (b) (6))

Show Time As Tentative

Members of the Toxic Substances Control Act (TSCA) New Chemicals Coalition (NCC) would like to schedule a meeting with you and other U.S. Environmental Protection Agency (EPA) staff. The purpose of the meeting is to discuss the issues staff is encountering as part of new chemical reviews under TSCA Section 5. We believe there may be approaches in which we could work together to solve the many challenges that the Office of Pollution Prevention and Toxics (OPPT) faces in implementing new TSCA while diminishing the significant problems that continue to occur.

In particular, we are specifically concerned with the ongoing commercial impacts resulting from assumptions about workplace practices that are overseen by the U.S. Occupational Safety and Health Administration (OSHA). We believe a transparent and factual basis for EPA's assumptions for new chemicals with workplace exposures will result in reduced EPA burdens, more consistent workplace exposure control requirements, and an overall stronger regulatory framework.

Hi Charlotte and Nancy,

Forwarding this meeting invite from Louise to let you know that this meeting is happening the day before our May 1 meeting, and to convey a welcome for either or both of you to join in you want to participate – especially since I’ve seen a cancelation for our regular check in which would have been on 4/27 (I was going to be out of town anyway). I’m confident we will be able to quickly go through the pieces so all aware of how things will be ready for May 1 event. Of course, also please let me know if you have any questions or anything else you need from us in regard to this meeting (e.g., you ok with the talking points, etc.).

	Location	WJC East 1153
	Attachments	May 1 OCSPF FLS In-Person Meeting - 4-16-18 draft final.docx
	Show Time As	Tentative
		New update – Our May 1 meeting will start with lunch at 12:00 (not 12:30); and, per the agenda, the working part of the meeting will still start promptly at 1:00 and end at 3:30 with a post-meeting social event for those who can stick around.

Dear OCSPF Managers,

I'm sending you this update to my previous invitation to provide you more information for our first Annual OCSPF First Line Supervisors Meeting on May 1. The OCSPF DAAs view this meeting as a critically important event in support of our OCSPF priorities. Please refer to the attached Agenda for meeting objectives, outline (including list of challenges/opportunities), and logistics (including suggestions for staggered shuttle bus use from PY). While our expectation is that all OCSPF first-line supervisors will attend the entire meeting, we are also expecting that Division- and Office-level management will be present for at least the opening remarks (1:00 to 1:45). Also, we welcome all to participate in the pre-meeting pizza/salad networking appreciation lunch starting at noon! Importantly, we will be using acceptances to this meeting invite to ensure broad OCSPF participation and to give us a good sense of how much food to get. If you are planning to come to the meeting, but will be skipping lunch, please let your First Line Supervisor

Forum Co-Lead know, so we can plan accordingly. The FLS Forum co-leads are Seema Schappelle-OSCP, Rachel Holloman-OPP, and Guy Tomassoni-OPPT.

Very much looking forward to your participation in this first line supervisor-focused, cross-OCSP dialog. Questions concerning this meeting can be directed to any of our FLS Forum Co-Leads (Rachel, Seema, or Guy).

Thank you,

Subject Celebration of New EPA Office of Continuous Improvement

Location Green Room

Show Time As Busy

Hello all:

I am pleased to invite you to a short celebration of the creation of EPA's Office of Continuous Improvement (OCI), which is home to the team responsible for deploying the EPA Lean Management System (ELMS). Establishing an office dedicated to agency-wide process improvement is an important and lasting step in EPA's Lean transformation. You have played an important part in the initial steps of this journey, so I hope you will join us!

The program will include remarks by Administrator Pruitt, OCI Director Serena McIlwain, and myself.

Please do not forward this invitation, as space in the Green Room is limited.

Thanks very much,

Henry

Best,

Madiha

So – it's been awhile.

I attached some before and after photos y'all may remember. Look how young we once were....

Randy Johnson and I were exchanging emails the other day and discovered we will both be in DC next week. Perfect time for a reunion!

Let's do a Happy Hour on Wednesday May 23 at (b) (6) starting at 5:30 eastern. Not sure if I can reserve space or not (and frankly if I'll get around to it). Please note the address as there are 2 locations.

Hope to see you all there! Randy is authorizing travel on behalf of the Mint.

Apologies everyone – we will be in WJCN 5530 after all. We will have someone posted at the other location to redirect lost traffic.

Colleagues,

As stated in our February 23rd memo<https://www.epa.gov/sites/production/files/2018-02/documents/epa_ej_memo_02.23.2018.pdf>, EPA is launching a new Environmental Justice and Community Revitalization Council (EJCRC). OP AA Brittany Bolen will convene our first meeting of this council on May 29, 2018. I ask that Assistant and Regional Administrators participate in this initial meeting, along with program staff from your organizations involved in EJ and community-based work. One of the first items we will discuss at this meeting will be the council's permanent membership and expectations for future meeting frequency.

The EJCRC will function as the Agency's central decision-making body for determining environmental justice and community-driven strategic priorities and guiding their implementation. The EJCRC will support the Administrator's goals of cooperative federalism and public participation in solving environmental challenges through locally led, community-driven solutions. The EJCRC will also support vulnerable communities in their efforts to grow, revitalize, and thrive by leading the integration and better alignment of the Agency's EJ and community efforts across our programs and activities. We would like to use this meeting to begin a conversation with EPA senior leadership on the most immediate priorities for these programs, which include their involvement with the lead initiative, working with states and meeting communities at their needs.

Attached please find a draft agenda for this meeting. Should you have any questions or need any assistance in preparation for this meeting, please contact Alyssa Edwards (Edwards.alyssa@epa.gov <<mailto:Edwards.alyssa@epa.gov>> <<mailto:Edwards.alyssa@epa.gov>>, 202-564-0473).

	Environmental Defense Fund requests a meeting with you and other
	appropriate EPA staff to discuss OCSP's implementation of the
	requirements of the Lautenberg Act with respect to the assertion,
	substantiation, EPA review and determination, and public disclosure of
	information submitted to the agency that is subject to claims of
	confidential business information (CBI).

While we wish to discuss the issue broadly as it relates to both existing and new chemicals under TSCA, we are particularly interested in hearing from the agency how it is or intends to implement the law's requirements relating to:

* CBI claims in new chemical notices and associated information, and EPA's reviews of them; we have recently completed an in-depth analysis of about 70 PMN public files we received from EPA's Docket Center, and have identified what we consider serious, systemic deficiencies, detailed in a series of blog posts (<https://bit.ly/2JsyoOf> <<https://bit.ly/2JsyoOf>>);

* assignment of unique identifiers to chemicals for which the agency approves or receives CBI claims for specific chemical identity; and

* publication of EPA determinations on CBI claims it reviews.

We also would like to receive an update on EPA's plan and schedule for:

* making public an updated database of information collected under the 2016 cycle of Chemical Data Reporting (CDR) that includes all information the agency originally withheld in its initial release that is not eligible for CBI protection; and

* establishing a readily accessible means for the public to track the status of EPA reviews of CBI claims, and where approved, understand the sunset dates associated with such claims.

Muna Nahar joined the Design for the Environment Branch in the Chemistry, Economics, and Sustainable Strategies Division' (CESSD) in September 2016 as a Presidential Management Fellow. As a Toxicologist, she supports toxicology reviews of chemicals in various industrial/consumer products in the Safer Choice program. Prior to DfE, she worked at EPA's Office of Children's Health Protection as an Association for Schools and Programs of Public Health (ASPPH) fellow from 2014-2016.

Muna holds a bachelor's degree in molecular biology and chemistry from Wesleyan University and a PhD in toxicology from University of Michigan's School of Public Health. For her thesis, Muna studied prenatal exposures to endocrine disruptors and their influence on developmental programming of xenobiotic metabolizing enzymes and the epigenome. Throughout her research career, she became proficient in a variety of high throughput genetic and epigenetic techniques. Muna hails from Connecticut, and in her free time enjoys hiking, volunteering, cooking/baking and reading.

Amelia Nguyen has been serving her Presidential Management Fellows appointment in the Risk Assessment Division since 2016. As a biologist, she supports the Biotechnology and Environmental Hazard Assessment tech teams by performing hazard and risk assessments on new and existing industrial chemicals under the amended Toxic Substance Control Act. She is also a co-SEPM for the Asian American and Pacific Islanders group in the Office of Chemical Safety and Pollution Prevention.

Prior to joining the EPA, Amelia was an NSF Graduate Research Fellow at Washington University in Saint Louis. She graduated from the Division of Biology and Biomedical Sciences, and earned a Ph.D. in Plant and Microbial Biosciences. For her dissertation, she utilized synthetic biology and mass spectrometry to probe dynamic proteomic changes in cyanobacteria. Outside of the lab, she spent 3 years managing projects for a biotech consulting company. She also received a B.S. in Genetics

and Plant Biology from the University of California, Berkeley. Go Bears!

Amelia grew up in Orange County, California. She enjoys reading non-fiction books, walking dogs, and drinking coffee.

Subject: Speaking with someone Monday about epidemiology and pesticide decisions

I wanted to talk with someone at EPA about how epidemiology is used in pesticide decisions. I have read the attached document.

I wanted to ask questions like

1) How useful is epidemiology in pesticide decisions and why is it important, if you thin it is

2) CropLife in Nov. 2016, see below, filed a petition asking EPA to “halt regulatory decisions that are highly influenced/determined by results of epidemiological studies that do not meet well-defined data quality standards, and that are not integrated into the health risk assessment in a transparent, well-defined manner.” Any interim or final registration review decision for Phosmet could potentially be impacted by EPA consideration of the epidemiological studies identified in the CLA petition. What ended up happening with this

3) How would the Strengthening Transparency in Regulatory Science proposal impact, if at all, your ability to use epidemiology in pesticide decisions, and if not, why not.

4) I also have questions about organophosphates, including making sure I understand what the 10X debate is about, and what the timeline is for reevaluating this class of pesticides and where the agency stands on health impacts and potential use of epi studies for this effort.

I really hope we can discuss all of this without just getting formal written responses to these questions. Let me know if we can have this conversation on Monday. It could be a mix of on the record and on background.

This is a case where the story is not yet drafted and we want your input in advance to help influence the story.

Thanks in advance

Eric

Meeting Description

* Review the portfolio of BPPD's Environmental Stewardship Branch and how it is responsive to EPA's integrated pest management (IPM) charge under FIFRA/FQPA as well as supportive of the division's PRIA efforts. Learn how this branch promotes IPM to a variety of stakeholders in mosquito control districts, schools, health departments, agriculture, and homes. Learn how the EPA Regions and long-standing relationships with non-profit organizations are used to further disseminate the message about IPM as part of a sustainable, healthy environment. Additionally, an overview of BPPD's draft IPM strategy will be shared.

Expected Outcome

* Clearance to provide IPM strategy for DAA review and agreement and, subsequently, clearance for OPP to share the draft strategy with the Regions to secure their buy-in and guide their IPM implementation and outreach efforts.

5/23 News Release: Administrator Pruitt also announced four actions EPA will take following the summit:

- * EPA will initiate steps to evaluate the need for a maximum contaminant level (MCL) for PFOA and PFOS. We will convene our federal partners and examine everything we know about PFOA and PFOS in drinking water.
- * EPA is beginning the necessary steps to propose designating PFOA and PFOS as “hazardous substances” through one of the available statutory mechanisms, including potentially CERCLA Section 102.
- * EPA is currently developing groundwater cleanup recommendations for PFOA and PFOS at contaminated sites and will complete this task by fall of this year.
- * EPA is taking action in close collaboration with our federal and state partners to develop toxicity values for GenX and PFBS by this summer.

 (b) (6)

In July, an Accept/Reject functionality in EAS will be implemented. This long-awaited feature will allow buyers to review requisitions and either accept or reject requisitions before the requisitions are released.

Once a requisition is Accepted by the Contracting Office, it will be Released in EAS and the action will continue normally.

If a requisition is Rejected, the Program Office will be able to make changes to the package (Attachments and Supporting Documents) without having to create an Amendment. The updated Requisition can then be Resubmitted to the Contracting Office.

Please join us for an EAS Accept/Reject Webinar Session. We will review the new Accept/Reject functionality in EAS as well as introduce the business process. Please accept one meeting invitation to attend. Additional make-up sessions will be offered in July.

The sessions will be as follows:

Session 1: Tuesday, June 26, 2018 – 10-11AM EST

Session 2: Tuesday, June 26, 2018 - 2-3 PM EST

Session 3: Thursday, June 28, 2018 - 10-11AM EST

Session 4: Thursday, June 28, 2018 – 2-3 PM EST

Connecting with Skype: Audio/visual is provided via Skype. Please press the blue “Join Skype Meeting” link above to launch the audio/video; the link will only work for this session. On the “Join Meeting Audio” pop up, either select “Use Skype for Business (full audio and video experience)” to listen and speak through your computer (make sure to unmute your computer!). Alternatively, you can have Skype call your phone number by selecting “Call me at” and then entering in the phone number (make sure to select the OK button on the Join Meeting Audio popup and answer your phone!).

Subject EAS Accept/Reject Webinar Session #3
Location Skype Meeting
Show Time As Tentative
 --> Join Skype Meeting
 (b) (6)

In July, an Accept/Reject functionality in EAS will be implemented. This long-awaited feature will allow buyers to review requisitions and either accept or reject requisitions before the requisitions are released.

Once a requisition is Accepted by the Contracting Office, it will be Released in EAS and the action will continue normally.

If a requisition is Rejected, the Program Office will be able to make changes to the package (Attachments and Supporting Documents) without having to create an Amendment. The updated Requisition can then be Resubmitted to the Contracting Office.

Please join us for an EAS Accept/Reject Webinar Session. We will review the new Accept/Reject functionality in EAS as well as introduce the business process. Please accept one meeting invitation to attend. Additional make-up sessions will be offered in July.

The sessions will be as follows:

Session 1: Tuesday, June 26, 2018 – 10-11AM EST

Session 2: Tuesday, June 26, 2018 - 2-3 PM EST

Session 3: Thursday, June 28, 2018 - 10-11AM EST

Session 4: Thursday, June 28, 2018 – 2-3 PM EST

Connecting with Skype: Audio/visual is provided via Skype. Please press the blue “Join Skype Meeting” link above to launch the audio/video; the link will only work for this session. On the “Join Meeting Audio” pop up, either select “Use Skype for Business (full audio and video experience)” to listen and speak through your computer (make sure to unmute your computer!). Alternatively, you can have Skype call your phone number by selecting “Call me at” and then entering in the phone number (make sure to select the OK button on the Join Meeting Audio popup and answer your phone!).

Governor Phil Bryant of Mississippi

John Boykin, Federal Affairs Advisor to the Governor

Rick Keigwin- Director, Special Review and Reregistration Division,
OCSPP-OPP

Erik Baptist- Senior Deputy General Counsel, OLEM

Charlotte Bertrand- Supv Environmental Protection Spec, OLEM

Preston Cory-Director, Intergovernmental Relations, OCIR

In regards to the meeting, Governor Bryant would like to meet with whomever you may recommend to discuss a Mississippi company called Spartan and get a brief update on where we stand. A little about the project...Spartan makes a device that eradicates mosquitoes within an acre per unit, and they are currently seeking EPA approval to add a small amount of boric acid to the compound. The current compound is able to kill a particular mosquito strand that's indigenous to North America and parts of Central and South America. However in order for the product to

be effective elsewhere, they will need to add boric acid.

- Spartans mosquito eradicator was reported to EPA by the MS Dept. of Agriculture for a possible enforcement action

- The case was assigned to Justin Mullenix, EPA Region IV to review and determine if the product requires federal registration as a pesticide or if it is exempted from registration due to minimum risk associated with the product.

- Mr. Mullenix confirmed it will be months before he can review the product due to a backlog in pesticide enforcement cases

- Gov. Bryant has spoken with Administrator Pruitt about the matter.

Subject: possible informal meeting during July

Nancy and Jeff –

I am interested in scheduling a meeting with the two of you soon, so we can confer and bring you up to date on the considerable progress that is being made on certain new chemicals issues.

Among the clients I represent, I am fortunate to work with the Semiconductor Industry Association. SIA includes the major US manufacturers of semiconductors (“microchips”) that are components of numerous electronic devices. That industry works closely with its suppliers, who are manufacturers and processors of various sophisticated chemical substances and mixtures that are critical to “chip” making. Such substances are unique and highly specific in their composition and properties; consequently, new chemicals often are being developed to suit specific technologies.

Among the substances used in these processes are Photo-acid Generators (PAGs) which are used in photolithographic processes to layer various surfaces on microchips. Last year, SIA and its suppliers voluntarily formed a Consortium to address certain issues that had been arising in the context of the Agency’s review of PAG substances that are submitted as new chemicals (in LVEs and PMNs).

Approximately one year ago, the two of you met with a delegation from SIA and its core group of suppliers to discuss the New Chemicals Program’s approach to new chemical PAGs. (The meeting occurred in May 2017, just as Mark Greenwood was retiring from his practice – while he was transitioning this client to me.) In the intervening period, we have

made great strides as the PAG Consortium has worked collaboratively with New Chemicals Program personnel on a structured agreement by which our members are supplying certain information to EPA reviewers and will be generating new data on representative PAG substances to submit to EPA.

We think this would be a good time for you to become more acquainted with SIA's role, how its industry depends on the availability of innovative new chemistries, and report on how the PAG Consortium is continuing to work with EPA personnel to further the Agency's objectives to obtain a more robust data profile on this category of substances.

If we could find mutually convenient dates during the middle two weeks in July (the weeks of July 9th and 16th) that would be ideal. I realize your schedules are jammed packed; thus, an informal meeting is being sought. We would bring with us only a handful of SIA personnel, one or two representative members, and a "supplier" representative.

I would be pleased to contact your respective schedulers to seek an appropriate date.

Larry

Our discussion interests include the points that we both we have submitted during the comment periods and will likely include other comment submissions both from other response, such as Oxitec/Intrexon and other substantive comments that highlight concerns, risks, performance and standards applicable to the OX513A.

Our goals remain focused on assuring human and ecological health and safety, and the science of assessing this technology within the background of outstanding societal needs that have affect on risk, versus reward, decision making.

 Good Afternoon OPPT Colleagues,

In collaboration with OPPT's Health and Wellness Wednesday Series, if your schedule permits, please join your colleagues and learn more about brain health.

Alzheimer's is a brain disease that causes a slow decline in memory, thinking and reasoning skills. This interactive session focuses on the ten warning signs and symptoms of this disease. Our partners from Blue Cross Blue Shield will lead this dynamic training.

It is crucial to take care of ourselves and Wellness Wednesdays is a perfect start to do that. Bring your lunch and let's learn together!

OPP, perhaps we should have this meeting at PY? Shannon, can you set up the room?

This meeting was requested by OCSPP's DAA Charlotte Bertrand, to discuss OCSPP's proposed Corrective Action Plan for WPS Final Rpt No. (b) (4)

(b)(5) - DPP

I'm going to work with the DAA's scheduler and with OPP's scheduler and the OIG to find a time that works for all. My apologies for the multiple reschedules. This time appears free for most but this meeting is not confirmed yet.

Thanks,

Janet

Subject SHC Seminar Series - EnviroAtlas Educational Materials

Location online

Show Time As Tentative

Webinar is in one hour! For folks here in RTP, we will gather in Room D-141.

ABSTRACT:

EnviroAtlas <<https://www.epa.gov/enviroatlas>> is an ecosystem services mapping tool developed by the US Environmental Protection Agency and its partners that empowers anyone with the internet to be a highly informed local decision-maker. It offers hundreds of data layers, allowing users to easily obtain information and visualize how ecosystem functioning relates to our health, our communities, and the economy. Jenna Hartley, ASPPH Environmental Health Fellow hosted by ORD, has worked with researchers and educators to design a suite of K-16 EnviroAtlas Educational lesson plans <<https://www.epa.gov/enviroatlas/enviroatlas-educational-materials>> and resources that leverage the EnviroAtlas tool, allowing participants to engage in highly interactive hands-on learning where they are introduced to data visualization and can build their analytical, geospatial, and decision-making skills. The lesson plans adhere to State Science Educational Standards, and some lessons are also available in Spanish. Concepts that the lessons address include ecosystem services, watershed geography and management, the water cycle, air quality, urban planning, biodiversity, and connections between the environment and human health. Jenna will present an overview of EnviroAtlas and conduct virtual demonstrations of some of the available EnviroAtlas Educational lesson plans.

GAO entrance conference for the audit on Alternatives to Animal Research (notification memo attached).

7/26/18 update: Attached are GAO's discussion questions. The first section of questions (1-10) are general, followed by more office specific

questions (11-21). GAO will likely request separate ORD and OCSPP follow up interviews to address any questions not answered during the entrance meeting.

Audit objectives are to determine: 1) What efforts have federal agencies made to develop, validate, and promote alternatives to the use of animals in research, testing, or training? 2) What challenges do agencies face in their efforts to develop, validate, and promote alternatives to the use of animals in research, testing, or training?

	Subject	Scientific Integrity Town Hall for OPP Staff	
	Location	PYS 4370-80	
	Show Time As	Tentative	
		Correction room change.	

Hello Everyone,

Please see below for an event you don't want to miss!

What: Scientific Integrity Town Hall with the EPA Scientific Integrity Officer

Who may attend: Staff only, no managers

When: There will be two identical sessions Tuesday September 11 at 2 PM and Wednesday September 12 at 11 AM

Where: PYS 4370-80

Why: This is the staff's opportunity to come and have your questions answered about what managers can and cannot request from a scientific integrity point of view, where are the lines drawn between risk assessors and risk managers in requesting changes to scientific documents, what is a reasonable amount of time to be given for right of last review, what constitutes clarifying scientific language versus changing the meaning of the science, and anything else you've been wondering. If you bring specific examples and/or documents you can get specific answers. After each one hour session, the Scientific Integrity Officer will stick around for another 1-1.5 hours to chat with you one on one (so if you're not comfortable asking your question in front of the whole group, this is still your opportunity). Come now or hold your peace.

ABSTRACT:

Exposure to urban green spaces has been linked to various health benefits including reduced risks of cardiovascular and mental disorders, diabetes, and mortality, and improved pregnancy and developmental outcomes. The hypothesized pathways to improved health include reduction of chronic stress, enhanced physical activity, and improved functioning of the immune system. ORD researcher Andrey Egorov will present on recently completed and ongoing research projects at the Epidemiology Branch aimed at characterizing subclinical effects of exposure to the natural living environment using the composite biomarker-based measure of physiological dysregulation known as allostatic load. A recent pilot PIP study in the Durham-Chapel Hill, NC area demonstrated that individuals with more greenery around their residences had significantly reduced allostatic load scores based on 17 biomarkers of immune, neuroendocrine and metabolic functions. The Residential Environment, Allostatic Load and Diseases (RELANDI) study is ongoing, and involves a larger sample of North Carolina population.

SPEAKER BIO:

Andrey Egorov is a health scientist at the NHEERL EPHD Epidemiology Branch. He completed his doctoral and post-doctoral training in environmental health at the Harvard School of Public Health in 2002, had conducted research on epidemiology of infectious diseases at Tufts School of Medicine in 2002-2005, and worked as a health scientist at NCEA-Cincinnati in 2005-2010 focusing on microbial risk assessment and waterborne infections. After spending 5 years working at the World Health Organization's European Centre for Environment and Health in Germany, he returned to EPA in 2015. His current research focuses on epidemiology of waterborne infections and mechanisms of health impacts of environmental and social factors in urban communities. He is a PI of an ongoing epidemiological research project on health effects of urban green spaces in North Carolina.

Subject Scientific Integrity Town Hall for OPP
Location PYS - 4370-80
Show Time As Tentative

Hello Everyone,

Please see below for an event you don't want to miss!

What: Scientific Integrity Town Hall with the EPA Scientific Integrity Officer

Who may attend: Staff only, no managers

When: There will be two identical sessions Tuesday September 11 at 2 PM and Wednesday September 12 at 11 AM

Where: PYS 4370-80

Why: This is the staff's opportunity to come and have your questions answered about what managers can and cannot request from a scientific integrity point of view, where are the lines drawn between risk assessors and risk managers in requesting changes to scientific documents, what is a reasonable amount of time to be given for right of last review, what constitutes clarifying scientific language versus changing the meaning of the science, and anything else you've been wondering. If you bring specific examples and/or documents you can get specific answers. After each one hour session, the Scientific Integrity Officer will stick around for another 1-1.5 hours to chat with you one on one (so if you're not comfortable asking your question in front of the whole group, this is still your opportunity). Come now or hold your peace.

 Good Morning OPPT,

Attached please find the presentation for tomorrow's Health and Wellness Wednesday session.

In collaboration with OPPT's Health and Wellness Wednesday Series, if your schedule permits, please join your colleagues on Wednesday, September 19, 2018, from 12:00 pm to 1:00 pm (WJC East Building 4225), for a session on Achieving Work-Life Balance.

The goal of this workshop is to help participants achieve greater effectiveness and satisfaction by better balancing the demands of their occupational and personal lives. Participants examine their current time demands, pressures and priorities and consider their future or idealized priorities. They also learn strategies and practical techniques for achieving a balance of personal and workplace responsibilities.

It is crucial to take care of ourselves and Wellness Wednesdays is a perfect start to do that. Bring your lunch and let's learn together!

 Summary of Discussion and Action Items from LAST YEAR'S RA meeting with Ag Secretaries – September 28, 2017.

Worker Protection Standards:

- Nancy Beck informed the group that EPA plans to extend the compliance date (EPA granted the NASDA petition asking for more time to outreach to the regulated community) and look at other issues in the WPS rulemaking. EPA will engage stakeholders through an Advance Notice of Proposed Rulemaking (ANPRM) to get input on issues such as applicator exclusion zones, designated representative issue, minimum age, etc.). The ANPRM will be released in October or November.
- DE is most concerned with who is responsible for ensuring training happens -- the farmer or brokers who contract with farmers and hire workforce. DE has brokers who contract with farmers who grow crops. The brokers hire the workforce to harvest the crop. These brokers work up and down the eastern seaboard. Brokers say they are not subject to the same enforcement in other regions that they are experiencing in R3. Enforcement needs to be the same across the US.
- The question is what is the responsibility of the farmers, in training the workers they hire, even when they are contracting labor.
- DE is also concerned with the timing of any changes to the WPS regulations. Any changes would need to be finalized by January in order to give states time to do additional training and education before growing season starts.
- DE emphasized the need for consistent and comprehensive education and outreach from both states and EPA is necessary.

ACTION: DE Ag Secretary Scuse will work with RA to develop a set of issues to send to Nancy Beck for consideration in the ANPRM.

ACTION: EPA will make a practice to inform the State Ag Departments (at Secretary level), along with the State Environmental Agencies, when EPA is moving forward with conducting inspections or taking compliance or enforcement actions against farmers on the Worker Protection Standards regulations. Note that EPA only inspects if referred by the state.

ACTION: EPA will work with states to ensure consistent education and outreach at key ag events. EPA will conduct a joint training with DE at Ag Week and at the Watermelon Association training.

Pesticide Reviews:

- EPA will be re-evaluating over 700 pesticides by 2022 based on sound science.
- DE wants to ensure the continued use of chlorpyrifos, glyphosate,

and atrazine. DE says that there is no scientific basis for removing the use of these pesticides, indicating that atrazine has been evaluated by EPA twelve times.

ACTION: EPA will finalize human health risk assessments for atrazine and glyphosate by the end of the year. Nancy Beck offered to brief the group on the results of the studies and other new developments as they become available.

WJC –West and Connecting Wing OEP Team:

This active shooter response training is scheduled for the WJC – East/West and Connecting Wing OEP teams. The training is open to all EPA employees. OEP members please encourage staff in your office to attend.

The purpose of this training is to help employees learn what to do and not do during an active shooter incident. The training provides insight on the Run. Hide. Fight. methodologies. These methods can be used outside of the office environment. Active shooter incidents have increased in recent years and these incidents by their nature are unpredictable, happen quickly, and may end before law enforcement arrives. Please take time to join us at the following Active Shooter Response Training for the month of September in room 4144 West building.

Tuesday, Sept. 25th, 11am – 12pm

Subject: First Moot Court -- EDF v EPA (DC Cir) (Phil Dupre) (TSCA Inventory Rule)
When: Friday, September 28, 2018 10:00 AM-12:00 PM (UTC-05:00) Eastern Time (US & Canada).
Where: Room 8000 Patrick Henry Bldg, 6th and D St, NW (or teleconference -- see dial in information below)

All –

The D.C. Circuit has scheduled oral argument in this case for October 12, 2018, before Chief Judge Garland, Judge Millett, and Senior Judge Edwards. We are planning to hold two moot courts. The first will be at 10 am on Friday, Sept. 28, and the second will be at 10 am on Friday, Oct. 5. Please let me know if these times present a conflict for anyone planning to attend. Otherwise, Phil will distribute the briefs about a week in advance. The two moots should cover the same ground, although I expect the first one to be a little less formal.

Please feel free to forward this invitation to others at EPA who might wish to attend.

If anyone wants to participate by phone, please call (b) (6), code (b) (6)

I'd appreciate it if someone at EPA could send me a list of EPA employees who are expecting to attend the moot court(s) in person a couple days in advance so we can provide a list to our security staff to help with building access.

Thanks.

Jack

 Has it been a long week?....Come and dance

Did your team lose the volleyball tournament? Come and dance

Did your team win the volleyball tournament? Come and dance

Do you want to impress your significant other? Come and dance

Do you want to prove me wrong when I say I can teach anyone how to dance? Come and dance!

Looking to learn some sweet dance moves for your next holiday party, wedding, or friendly dance-off? Love Jukebox, Rock and Roll, and Big Band music?

Then stop by an exciting Swing Dance FFF event on October 4th!

On October 4th 3:00-4pm Christian Bongard and Meghann Niesen are offering a beginner East Coast Swing lesson to EPA employees as part of the Feds Feed the Families Campaign!

This class will be a true beginner's class (yes, even those of you with two left feet and no sense of beat can try it out). The event will include: a 40-minute lesson covering the basic single step, closed and open position, left handed turn, cross by and others, followed by an open dance for people to practice their new grooves.

Note: No partner needed. We will rotate partners with every new step we learn (which is by far the best way to learn).

About East Coast Swing: A social partner dance that began in the 1940s and is sometimes called the Jitterbug or East Coast Lindy. It is a rhythm dance that switches between 6 and 8 beat patterns with moves inspired by several other dance forms. Here's an example of beginners dancing: https://www.youtube.com/watch?v=ZUdSR_BfUVs

About the instructors:

Christian Bongard works in PRD and been doing various ballroom dances for years. His favorite is East Coast Swing because it's easy to teach and is less likely to step on his partners toes. (The footwork is side to side vs forward and back like salsa).

Meghann Niesen works in EFED and did competitive ballroom dancing while in college and has forgotten more than Christian will ever know about Waltz.

Please consider donating 2 canned goods to the Feds Feed Families campaign. (IOUs will be accepted). Online donations can be made via a grocery delivery service, with delivery directly to the Capital Area Food Bank (www.capitalareafoodbank.org <<http://www.capitalareafoodbank.org>>). Please notify the FFF team of online donations and IOUs for total tallying.

I am proposing to push up the moot court on October 5 by one hour (from 2 pm to 1 pm) to address a schedule conflict at EPA. If the new time is a problem for anyone let me know. Thanks. Jack

I am proposing to push this back to 2 pm on the same day, to resolve a conflict with a pair of CAA D.C. Circuit arguments we have in the morning, which some of us will be attending. Sorry for the inconvenience. If the new time is a problem for anyone planning to attend let me know. Thanks. Jack

All –

The D.C. Circuit has scheduled oral argument in this case for October 12, 2018, before Chief Judge Garland, Judge Millett, and Senior Judge Edwards. We are planning to hold two moot courts. The first will be at 10 am on Friday, Sept. 28, and the second will be at 10 am on Friday, Oct. 5. Please let me know if these times present a conflict for anyone planning to attend. Otherwise, Phil will distribute the briefs about a week in advance. The two moots should cover the same ground, although I expect the first one to be a little less formal.

Please feel free to forward this invitation to others at EPA who might wish to attend.

If anyone wants to participate by phone, please call (b) (6), code (b) (6).

I'd appreciate it if someone at EPA could send me a list of EPA employees who are expecting to attend the moot court(s) in person a couple days in advance so we can provide a list to our security staff to help with building access.

Thanks.

Jack

Hello Colleagues,

The OPPT Onboarding Team is hosting a New Employee Onboarding Coffee Break Hour on Tuesday, October 16, 2018, from 9:00am-10: 00 am. If you are a new EPA employee, reassigned from another part of the agency, or detailed to OPPT from another office – All are welcome to attend this event. We are asking you to please respond to this calendar invitation, so we can properly prepare.

Objective

The Coffee Break gathering gives the Senior Leadership Team an opportunity to meet and greet OPPT's newest employees, those who joined OPPT (from October 2017 - October 2018) in a relaxed atmosphere. This casual event also serves as an opportunity, where colleagues can get to know one another, and it is a great way to put names to faces and make connections.

If you have questions, please contact Michele Taylor at (202) 564-1380 or taylor.michele@epa.gov <<mailto:taylor.michele@epa.gov>> .
Looking forward to seeing you all at the New Employee Coffee Break.

*If you notice that there is someone that is not on this list that should be, please forward this information to them.

Regards,

OPPT's Onboarding Team

 *Please note, we will now be in Room 1152 WJCE, which is right across the hall from 1153 WJCE. Thank you.

Good Afternoon OCSPP Colleagues,

We lost a dear friend and valued colleague this past weekend. Our grief and confusion at this time are tremendous and we would like to support our employees. Our hearts go out to the (b) (6) family at this difficult time.

On behalf of EPA, we would like to invite you to a group conversation with a representative from our Employee Assistance Program provider, ESPYR. It will be a group session. It is not a counseling session but an opportunity to normalize our reactions and feelings, as well as receive some suggestions about what to look out for and how to care after ourselves. Immediately following this session, the counselor will remain for 1 hour to offer the opportunity for you to speak privately or continue a group discussion.

OCSPP staff are invited this Tuesday, October 23, 11am-12pm for

group discussion in room 1152 WJCE. The counselor will be available immediately following from 12-1pm.

If you are not available for this session, another session open to all EPA staff is scheduled for Wednesday, October 24, 1-2pm for group discussion in room 1117 A&B WJCE. The counselor will be available immediately following from 2-3pm.

Additionally, counselors are available to provide individual and confidential grief assistance 24 hours a day at 1-888-635-3202 or www.espyr.com <<http://www.espyr.com>> , user name/login USEPA.

The EAP brochure is linked here:

<(b) (6)>

This conversation is being offered to collaborate with you to work through the grieving process. Attendance is voluntary, albeit strongly recommended. Please note that only the individuals to whom this email is being sent are invited; furthermore, this conversation will be confidential between attendees and the EAP representative.

We do hope you will take advantage of this service. The attached informational sheets have also been provided by EAP and are an excellent resource for you following the loss of our colleague. We hope you'll take the time to read and allow this information to help you cope with all that comes with a loss.

We will forward homegoing service information upon receipt. There is also interest in scheduling an EPA memorial service in the near future. Information will be circulated. Thank you.

Health and Happiness,

Shawna

ABSTRACT:

Jon W. Allan and Christina Pastoria will present on the Michigan Office of the Great Lakes' current work to examine the impacts of Great Lakes environmental restoration and how it contributes to a larger strategy to understand the broad values and outcomes of site-specific and aggregate system-scale restoration in economic, social, cultural, and ecological terms. The OGL has long had the ability to express results in terms of ecological health and recovery; this presentation will introduce several interdisciplinary projects exploring the economic and socio-cultural frontiers of ecosystem recovery and enhancement.

This presentation will emphasize ongoing work supported by the OGL to illustrate and analyze the economic value of ecological restoration using a benefits-transfer approach within the ecosystem services framework. This approach extends and compliments the work recently completed by the Great Lakes Commission and partners on the economic returns that accrue under Great Lakes Restoration Initiative (GLRI) investments. Work under the GLRI is one lens on how restoration value accrues to nature and the economy, but other examples also lend themselves to such an analysis. This presentation will also touch on ongoing work supported through the Office of the Great Lakes using case studies to facilitate an understanding of the

social value of restoration both in Areas of Concern and in non-AOC communities and to study the efficacy, value, and longevity of the Public Advisory Council (PAC) structure and performance under the AOC program.

SPEAKER BIOS:

Jon W. Allan, Director

Michigan Office of the Great Lakes

Jon Allan became Director of the Office of the Great Lakes in 2012, contributing his considerable experience to the office's mission to protect, restore, and sustain the Great Lakes watershed. With nearly three decades of experience in environmental and energy policy, he has professionally applied his understanding of ecological management in a variety of academic, corporate, and public occupations.

Jon's research has been published in journals in both Canada and the U.S. and organizations and individuals rely on his expertise to lead environmental planning and policy projects in Michigan and the Great Lakes region. Prior to his service with the State of Michigan, Jon taught courses in biology, ecology and environmental impact assessment at Michigan State University and other institutions.

Jon advised during the Great Lakes Compact negotiations and co-chaired the State's Water Resources Advisory Council tasked with formulating the state's implementation of the Great Lakes Compact. He has contributed his expertise in a range of roles with the State of Michigan.

Jon served as Chair of the Great Lakes Commission and holds board member and advisor positions in numerous other regional organizations. Jon has a keen interest in making a difference in the Great Lakes watershed and in natural resource governance.

Christina Pastoria, Economic Analyst

Michigan Office of the Great Lakes

Christina Pastoria began working as an economic analyst with the

Office of the Great Lakes in 2017. She has degrees from Michigan State University in economics and international relations, with a focus on environmental sustainability.

Christina has spent the last year developing and contributing to projects to better understand the social and economic impacts of Great Lakes restoration work. She has a particular interest in the creation and widespread adoption of methods to incorporate environmental health into every day decision-making.

A number of my state farm bureaus have asked me if it would be possible to get EPA on a conference call with them to answer questions about the new dicamba label. Any chance we might be able to do that? Am happy to host with our conference line.

If you guys would be available, let me know and I'll work on things at my end.

Thanks for considering this.

Subject: Dicamba Call

All,

I have been getting some questions from our membership about Dicamba, and I was wondering if we could hold a call for NASDA Members and State Staff sometime in the next week or so (sometime before Thanksgiving).

Thank you so much for your consideration!

Best,

Hello Kristen and Charlotte,

Would tomorrow, Tuesday November 27th, between 9am and 11am EST be feasible?

If so, we can send out connection information for an online meeting during that window.

If not, let us know if another day this week during the same timeframe might work -- with the difference between time zones, Dan is typically available during that window.

With best regards,
Heather

Hi Dan - thank you so much for the email and for offering to set up a call while you are traveling in China. I am currently out of town with family for Thanksgiving. Would it be possible for us to have a call next week or the week after? I hope that another day is not to inconvenient, it is very nice of you to arrange this while you are on travel.

Best
Charlotte

All –

Our colleagues in EPA have graciously offered to come to our office to provide us with training in anticipation of upcoming challenges to actions taken pursuant to the 2016 TSCA amendments.

The first session will be from 2-3:30 pm on Thursday, 11/29, in PHB 8000. This will be focused on new chemicals, and will roughly be split between legal and policy issues. We are also planning a second session on existing chemicals, which will be scheduled soon, probably sometime in December.

I am starting this invite with EDS managers and EDS staff attorneys who are currently handling TSCA matters, but I will also reach out to other EDS attorneys who may be interested. I am also including Justin Smith (LPS) and Jennifer Neumann (Appellate), in case anyone in your offices might be interested. My one request is that anyone who is planning to come in person please RSVP to this invite so we know how many people to plan for logistically.

I will also open up a conference line if anyone wants to listen in by phone at (b) (6), code (b) (6). We are also going to look into whether we can record all or part of this for future reference by people who can't make it in person or on the phone.

EPA folks – thanks again for setting this up, and feel free to pass this invitation on to others at the agency. Also, I'd appreciate it if you

would send me a list of likely in-person EPA attendees a couple days in advance that we can provide to our security staff to help with building access.

Thanks.

PURPOSE OF THIS MEETING

This is an Option Selection Meeting under the Action Development Process (ADP). As prescribed by the ADP, Options Selection is the last step in the development process before the workgroup completes the drafting of the action. More information about the ADP and options selection is available at (b) (6)

Can I delegate this meeting? Yes. As the ADP procedures require, the meeting invitation is directed to the AAs (or equivalents) for the offices that are participating in the development of this action. The invited (Acting) AAs, may delegate attendance to someone else within their offices – usually another senior manager - who is authorized to speak on their behalf. If appropriate, please forward or delegate this invitation.

Does my office need to participate? Attendance is required only if the invited AAs, their management-level designees, and/or the workgroup representative(s) (if authorized to speak on an invited AA's behalf) expect to raise any issues or concerns about the development of the action to OCSPP's senior leaders for consideration. If there are multiple representatives on the workgroup from an participating office, that office is expected to reconcile any disparate views and present a unified position concerning any question or issue at the early guidance meeting. Seating in the conference room is limited, so each office is asked to please send only its designated management representative and "+1". Others may participate via conference call.

What happens after the meeting? After the meeting, OCSPP will document the options and any decisions discussed during the meeting. OCSPP will distribute the options selection documentation to all workgroup members and other meeting participants, and upload a copy of the documentation to the ADP Tracker database.

Specifically, we met with Rick to inquire about engagement on the advancements EPA and the Services have made for ESA biological evaluations / consultation since the last public workshop in 2016, and to request establishment of forums for stakeholder engagement to continue work on the ESA assessment. Given that the last public workshop on these topics happened some time ago, we believe EPA should open channels for stakeholder engagement on topics such as:

- Streamline and modernize FIFRA and ESA risk assessment to make it more realistic and defensible;
- Work with EPA/OPP to make changes to deliver a simpler more workable assessment;
- After the initial requested public workshop, continue updates from EPA on progress it is making in its work (again, it's been a while since we have heard on the progress in this space, & more regularity would be helpful);
- Mechanisms for engagement, as it relates to work that EPA is engaging and in which industry is expending resources. Mechanisms need to include ability to withstand time and political change (e.g., have substance & structure), resource commitment to problem solving, focus and public engagement, as appropriate.

The group will include science, technical and policy experts from our member companies- likely 4-6 of us in attendance.

Stan—

Welcome back!

Earlier today, during the OPP Staff Meeting, we began talking about impacts that the shutdown has had on our activities. Preliminarily, we are thinking that our two upcoming SAPs may need to be rescheduled as critical technical work was not able to be done, given the shutdown.

Can we find some time in the next couple of weeks to meet with you and the appropriate OSCP staff to go through our two upcoming SAPs to see if we need to contemplate reschedules?

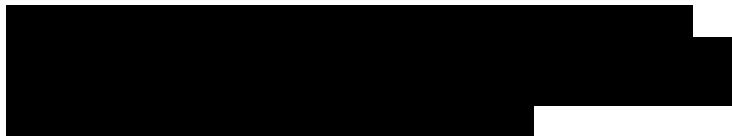

Thanks!

Show Time As Busy
The Office of Pesticide Programs received questions from various stakeholders requesting the Agency's position on using UAVs to apply pesticides in compliance with product labels. While there are significant benefits to this emerging technology (worker safety, targeted applications in hard-to-reach areas, and reducing environmental loading), there are also uncertainties which need the Agencies attention to ensure these applications can be made safely and in compliance with FIFRA regulations. This briefing is meant to give Alex an overview of these challenges and potential next steps.

Subject UPDATE: Martin Luther King Jr. Day Celebration (postponed from January due to the shutdown.)

Location EPA Headquarters Green Room

Show Time As Busy
2019 EPA Martin Luther King Jr. Day

On , February 27, 2019, from 3:30 p.m. EST to 4:30 p.m. EST, the EPA will hold a celebration in honor of Martin Luther King Jr (MLK). This celebration was postponed from January due to the government shut down.

Please mark your calendars and plan to join us for this event!

The keynote speaker is Ms. Willie King – Ms. King (no blood relation) was MLK’s secretary during the Civil Rights Movement. Ms. King traveled the country by MLK’s side to advocate for the fair and equal treatment of all people. She was also tasked with typing up MLK’s handwritten notes that eventually became his famous letter written while he was confined in a Birmingham jail.

The Mistress of Ceremonies will be Office of Civil Rights Director Vicki Simons.

Sign Language Interpreters will be present at the event. Persons needing reasonable accommodations should contact Kristin Tropp, National Reasonable Accommodation Program, Office of Civil Rights, at 202-559-0006 or tropp.kristin@epa.gov <mailto:tropp.kristin@epa.gov> .

Live streaming will be available via EPAtv <(b) (6)> . A recording of this event will be available on February 28, 2019 via the EPAtv-on-demand site <(b) (6)> . Please remember that

EPAtv is available at: (b) (6) (b) (6) >
using only Internet Explorer while on the EPA network and cannot be
